Between the seas:
Fresh wind –
wide horizon

Do you regard yourself as a passionate and inspiring Waldorf teacher?

Then feel invited to join our existing team of unconventional and young teachers at the New Waldorf School in Rendsburg in the heart of Schleswig-Holstein, the northernmost part of Germany, the land located between two seas, the North Sea and the Baltic Sea. The place is famous for its fascinating history, its picturesque gabled town houses, the rural areas surrounding the town in a rolling landscape with overwhelming fields of green and yellow and, last but not least, for a rich variety of cultural events like the Schleswig-Holstein Festival of classical music.

Our school is still growing, having established classes 1- 10 with about 250 students so far. We are aiming at offering all German school leaving qualifications in one respectively two years.

The school is part of an independent educational system dedicated to recognizing and developing the unique talents of each individual child. Through a comprehensive, well-balanced curriculum that integrates an academic, artistic and practical learning culture the teachers try to meet the intellectual, emotional, cultural and social needs of our pupils. Thus, the staff guides the children to develop a strength of purpose teaching them to make decisions and to take social responsibility. Furthermore, the special focus of our school is on arts, green schooling and media studies.

If you feel more and more inspired to support our team either as a class teacher or as a specialist subject teacher, we will look forward to welcoming you here in our school.

We are looking for support in the following fields:

- **CLASS TEACHER FOR CLASS 5**
- **ENGLISH, FRENCH (ALL LEVELS, INCLUDING EXAMINATIONS)**
- **PHYSICS, MATHEMATICS, GERMAN FOR THE UPPER CLASSES**
- **GARDENING, WOODWORK (INTERMEDIATE LEVEL)**

We offer good pay, social security, tutoring and also support when moving over to Germany (finding a place to live, German authorities).

If you are enthusiastic and willing to bring your knowledge and experience to such a wonderful place, do not hesitate to contact us.
