

Recognized as one of the “happiest places on earth,”
California’s Central Coast has
the pace & quality of life you’ve been longing for!

Quality of life: Because of the unique easy-going, high quality of life, California’s Central Coast is one of the most desirable areas in which to live. The natural beauty is legendary, the pace of life is tempered, and many modern stressors are kept at bay. The area has much to offer to outdoor enthusiasts (surfing, kayaking, hiking, biking, rock climbing, year-round gardening). Come join us in our Central Coast village!

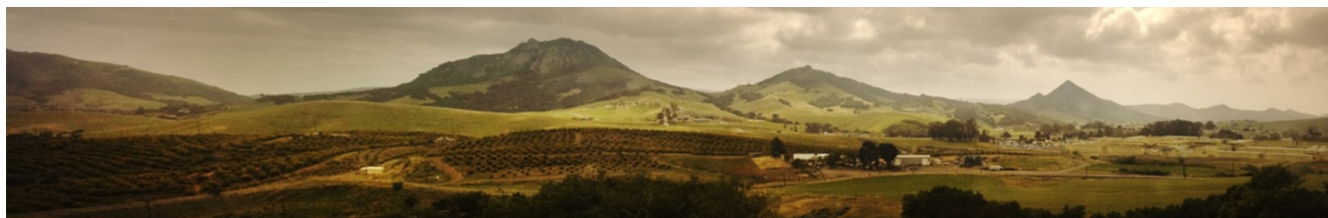

Engagement: As a growing program, new faculty will have the opportunity to engage in the collaborative journey of imagining, shaping, creating, and nurturing a growing school. Your voice and vision are a welcome addition.

Fulfillment: We believe in the symbiosis between the wellbeing of our school and the wellbeing of our faculty and staff. Your personal fulfillment, life balance, and synchronicity of spirit matter.

Support: A supported faculty is one piece in achieving the highest potential and fulfillment of both the individual and the school as a whole. We accomplish this through providing teacher development opportunities and with the collegial leadership and guidance of our Pedagogical Director.

Community: We are a thoughtful, caring community of faculty, administration, Board, and families that strives for open, respectful communication. We have fun together, take care of each other, and feel grateful for the magic we enjoy.
