Renewal Through the Arts

Veil Painting with Carla Schaareman

10:30-12:30 June 22nd—July 3rd and July 6th—17th

Veil Painting is a special way of working using very thin layers of pure color that allow a careful and gradual build up light filled images formed out of the color.

Each veil applied to the page is like a veil removed from ourselves creating a process of searching and self discovery illuminating that which is within.

These two week morning courses are for Waldorf Teachers, Parents and anyone interested in experiencing self discovery and renewal through artistic work. This course can be combined with the afternoon course **Carving the Planetary Seals with Patrick Marooney** for those who would like a full day of artistic work in painting and sculpture.
